

Plan of practical classis on bioorganic chemistry 2017

No	Topic	Volume of hours
1	Classification, nomenclature and isomerism of organic compounds	2
2	Chemical bonds. Electronic structure of carbon-containing compounds. Reactions mechanisms Test 1	2
3-4	Poly and heterofunctional compound.	4
5	LW1. Test 2	2
6	Fatty acids. Lipids	2
7	Compound lipids	2
8	LW2. Test 3	2
9	Amino acids	2
10	Peptide bond formation. Proteins LW 3. Test 4	2
11	Monosaccharaides	2
12	Oligosaccharides, polysaccharides LW 4.	2
13	Heterocyclic compounds Nucleic acids	2
14	Systematization of knowledge and preparation for the general module	2
15	GENERAL MODULE	2
