

## Plan of practical classis on bioorganic chemistry 2019

No	Topic	Volume of hours
1	Classification, nomenclature and isomerism of organic compounds	2
2	Chemical bonds. Electronic structure of carbon-containing compounds. Reactions mechanisms <b>Test 1</b>	2
3-4	Poly and heterofunctional compound.	4
5	<b>LW1. Test 2</b>	2
6	Amino acids	2
7	Peptide bond formation. Proteins <b>LW2. Test 3</b>	2
8	Monosaccharaides	2
9	Oligosaccharides, polysaccharides <b>LW 3.</b>	2
10	Fatty acids. Lipids	2
11	Compound lipids	2
12	<b>LW 4 Test 4</b>	2
13	Heterocyclic compounds Nucleic acids	2
14	Systematization of knowledge and preparation for the general module	2
15	GENERAL MODULE	2
